SUMMARY

Computer Science graduate from BRAC University with a CGPA of 3.75, currently working remotely as a Software Developer at Key Pillar AI Ltd. Experienced across software development, AI/ML research, academic administration, and teaching. My research focuses on offline reinforcement learning for vasopressor decision support in critical care, with my undergraduate thesis successfully defended and the resulting manuscript currently being prepared for submission to a Q1-ranked journal. I also serve as Academic Director & Vice Principal at a private educational institution.

PROFESSIONAL EXPERIENCE

Software Developer — Key Pillar AI Ltd

Oct 2026 – Present

Remote, Bangladesh | Company based in Portsmouth, United Kingdom

- Contribute to software development within the Engineering & Product Development team, working on assigned application, API, database, and software components.
- Participate in debugging, testing, Git-based development workflows, code reviews, technical documentation, and maintainable software development practices.

Academic Director & Vice Principal — Private Educational Institution, Dhaka

May 2026 - Present

- Coordinate administrative documentation, class schedules, lessons, records, notices & student progress.
- Support academic development and communicate with students, guardians, teachers & other stakeholders.

Selected Teaching Assistant — BRAC University

Feb 2025

- Selected by BRAC University for a Teaching Assistant position based on academic performance.

RESEARCH & MANUSCRIPTS

Undergraduate Thesis: *Personalized Vasopressor Dosing For ICU Patients Using Reinforcement Learning (MIMIC-IV)*

- Successfully defended in October 2026; manuscript currently being prepared for submission to a Q1-ranked journal. Developed and evaluated offline reinforcement learning methods for vasopressor decision support using retrospective ICU data from MIMIC-IV (Python, SQL, BigQuery, Pandas, NumPy, Scikit-learn).

Independent Solo Research Proposal: *Evaluating Vision-Language Models for Medical Visual Question Answering (Med-VQA)*

- Developing a computationally efficient research framework to evaluate VLM hallucination, reliability, robustness, and factual consistency in medical diagnostics (Expected 2027).

EDUCATION

BSc in Computer Science, BRAC University — 2026 (Degree conferral pending)

- **CGPA:** 3.75/4.00 (Peak: 3.90 | Merit-based Scholarship)
- **Honors:** Consistently recognized on the Vice Chancellor's and Dean's Lists.
- **Electives:** Cybersecurity, Advanced Algorithms, Bioinformatics, System Analysis & Design, Programming for the Internet.

HSC, Rajuk Uttara Model College (2021)

GPA: 5.00/5.00 (Science Group)

SSC, Rajuk Uttara Model College (2019)

GPA: 5.00/5.00 (Science Group)

- **JU CSE FEST '19 Contest Certificate:** *[click to view]*
- **Web Development, NSDA Level 3** — Apr 2025

SKILLS

- **Leadership & Administration:** Academic Administration, Institutional Planning, Curriculum Design, Leadership, Team Coordination.
- **Communication & Media:** Broadcast Communication, News Presentation, Bilingual Instruction, Scientific Documentation, Advanced Public Speaking.
- **Domain Specializations:** Offline Reinforcement Learning, Bioinformatics, Cybersecurity Fundamentals, Vision-Language Models (VLMs).
- **Programming Languages:** Python, C, C++, Java, JavaScript, SQL.
- **Web Development (MERN):** React, Node.js, Express.js, MongoDB, HTML, CSS.
- **Tools & Frameworks:** Scikit-learn, Pandas, NumPy, Matplotlib, BigQuery, Git, Google Colab, TeXstudio (LaTeX), Graphviz.
- **Languages:** Native Bangla, Fluent English, Elementary French (University Elective).

EXTRACURRICULAR & LEADERSHIP

ISSB Candidate (87th & 90th BMA Long Courses)

2021 & 2023

- Qualified for and completed the rigorous 4-day psychological, physical, and leadership evaluation camps conducted by the Inter Services Selection Board.

Executive, BRAC University Computer Club (BUCC)

2023 - 2025

- Assisted in organizing departmental tech events, programming workshops, and student engagement initiatives to foster a collaborative CSE community.

General Member, IEEE Student Branch Chapter

2023 - 2024

- Actively participated in departmental seminars, tech conferences, and networking events promoting advanced computing practices.

Participant, JU CSE FEST '19

2019

- Competed in the national inter-university Gaming Contest hosted by Jahangirnagar University, demonstrating strategic problem-solving under competitive conditions.
